

Junior Project Manager (m/f/d)

Gossau SG, Switzerland

As a leading company in the timber industry and in timber and silo construction, Blumer Lehmann uses the diverse potential of wood innovatively and in the sustainable value-added cycle. Our employees are committed to a wide range of customer projects at our headquarters in Gossau SG, at our locations in Switzerland, Germany and Luxembourg, as well as on assignments around the world.

Your tasks

- In this position, you work in a team for national and international projects and create construction, work and assembly plans as well as CAD 3D models and the machine data for bar trimming and panel cutting.
- You coordinate the construction site, transport planning and lifting equipment.
- You keep the project documentation and protocols.
- Your tasks also include data exchange with customers and contacts.
- You also support the project managers in timber construction planning.

Your skills and experience

You are a trained carpenter EFZ and have completed further training to become a foreman | foreman or you have completed training as a draughtsman EFZ specialising in architecture. Your goal is to specialise in timber construction planning and to be able to use your existing experience in the construction industry in a targeted manner.

We offer

We offer you an interesting challenge in an innovative and down-to-earth company with a good working atmosphere and an appreciative working environment. You can expect a dynamic team that communicates and acts with respect and trust. We will accompany and support you on your training path to become a timber construction technician.

We look forward to receiving your online application.
