Locality	Wädenswil
Country	Switzerland

American-style single-family house

Clad entirely in white, the design of the timber house was inspired by American construction. The unconventional shape of the plot resulted in the individual and winding footprint of the three-storey single-family home. Internally, an extraordinary wooden staircase including shelving and guardrails has a real wow factor. The timber balcony and roof terrace are ideal for relaxing and enjoying the views over Lake Zurich.
