

Timber pavilion for school and kindergarten

Opfikon, CH

Project details

Client	Town of Opfikon
Architecture	Blumer-Lehmann AG
Project type	Education and research, Temporary buildings
Construction type	Modular construction
Services	General contractor services (GC)
Construction	2015
Locality	Opfikon
Country	Switzerland

Flexible timber pavilion for more space in the school and kindergarten

The school pavilions provide the city of Opfikon with quick, flexible solutions that overcome any classroom shortages within their entire school network. The two-storey pavilions conform to the Minergie standard, include a fully controlled ventilation system and have the same dimensions (31.20 × 8.50 m). Both storeys can be accessed via an external steel staircase.
